# Capt. Adam Curry, an Officer of the Revolution.

A generation since, one of the best known characters in West Highland, Va., was Captain Adam Curry, a Revolutionary veteran. One of his grandsons, William Curry, Esq., is a well known citizen of Pocahontas County, and hence some items respecting him will be of interest to many of our readers.

Captain Curry was a native of Scotland, and came to America soon after the siege of Londonderry, and resided several years near Manassas Junction. A European traveller spent some time near Manassas, where Cap-tain Curry lived before his remov-al to Highland. He speaks of sufferings patiently, and in the end al to Highland. In a mo-ment there was room made for me to sit down, and every one who addressed me did it with a smile of conciliation. But no man asked me where I had come from or whither I was going. A gentle-man in every country is the same; and if good breeding consists in sentiment, it was found in the circle I had got into. The higher Virginians seem to venerate themselves as men; and I am persuaded there was not one in company who would have felt embarrassed at being admitted to the presence and conversation of the greatest mon-arch on earth. There is a compound of virtue and vice in every human character; no man was ever yet faultless; but whatever may be advanced against Virginians their good qualities will ever outweigh their defects, and when the effervescence of youth has been abated, when reason asserts her empire, there is no man on earth who discovers more exalted sentiments, more contempt of easeness, more love of justice, more sensibility of feeling than a Virginian."
